Information opening Camping Tiveden 2020 during the Covid-19 pandemi

To our guests, returning and new guests and the bookings already made for this season 2020,

In a short while it will be April 1st! A "magical date" since our past 9 seasons because it is our start of a new summer- season! This year however, suddenly everything seems to be completely different 😞 But... as far as we can overview now, we just plan to go open up with our nice campsite in beautiful Tiveden.

The Corona virus, unfortunately, is a very sad fact. It currently completely determines world news and our view of life and society. We are certainly keen on this and do not pretend that nothing is going on... .. Our campsite is affiliated with the national Swedish Camping Association (SCR / Camping.se) and in accordance with their advice, we can decide whether we want to open to go. Because we are a smaller campsite, and we now are at the beginning of the preseason, we see no reason at this time not to open from April 1th.

In the April and May months we mostly have only a few guests anyway, and given the closed borders and negative travel advice, we certainly do not expect guests from abroad during these months, but at least we still want to be open to our Swedish guests. And for you, guests who are coming from abroad, hopefully perhaps you can come anyway later in the summer? We'll have to wait and see. We will first look how it is going these 2 months of April and May, and then we inform you our current view of the situation again 😊

At least, In the positive case that you can travel again and come to Sweden; you will experience wonderful nature, fresh air and space around you. And that is exactly what we all need for a good resistance ;) Enjoying the sunset, a

nice and adventure walk in the woods directly from the campsite and in the unique National Park Tiveden; reflect, enjoy.... and take a deep breath in and out. In short: outdoor fun!

Of course, we follow the prescribed hygiene rules at our campsite. We already did that during our previous 9 seasons, but this - our 10th ! - season we will be even more accurate in this. By this we mean the prescribed complete disinfection of our sanitary ware, door handles, knobs and water taps. This is already a matter of course for us, but now it gives us an extra challenge! You can count on us, and we rely on your confidence in us.

Most guests come with their own camper, caravan or tent and that of course, is your own place to be and live where you determine your own hygiene and take your measures. And we take great care for all sanitary and service areas in the service building and reception. We put on appropriate places good hand soap and warm water is accessible. Hand disinfectant is available at strategic locations.

With our pitches (spots) we always keep a distance of 4 meters between the caravans / campers and tents. We will pay extra attention to this, and we count fully on your cooperation, so that everyone can have their own pleasant stay in comfort and tranquility. During our - already mentioned - 2 "start months" April and May we will keep 1 place free, between 2 campers. We are going to see how this works out in practice. In the high season we have to see how we are going to guarantee things. More information will follow about this.

As for your Stuga stay; we welcome you in a carefully hygienically cleaned Stuga. During your stay with your own family and after a clean arrival in the - according to regulations - disinfected Stuga, you have to keep the Stuga clean according to our prescribed hygiene rules. Due to the Corona hygiene regulations within the Swedish standards, there is no choice (anymore) whether you clean the Stuga yourself or whether you let us do that. In any case, we - as the camp management - will now take the final cleaning into our own hands in order to guarantee the quality and necessary hygiene. We count on your understanding for this.

As far as we are concerned, your booking we already made for the high season can simply remain. In this way, your Stuga stay or your camping pitch will in any

case be kept fine for you. Because we all cannot know how the situation will be in 3 months, it is maybe a good feeling that you –at least- can go on your planned holiday. If not so, you can always cancel to 1 week in advance, and you will receive your remaining amount back.

Of course we would like to ask you seriously not to come on your holiday, if you are not feeling well, have a cold or perhaps have flu / corona symptoms.

We ask for your understanding if maybe, later in the time, we have to decide to close the campsite anyway. Than this has to do with government rules and we will adhere to this at all times. But at the moment, however, no one can look further ahead.

In this way we try to keep up the courage and in any case offer you the opportunity to have your well-deserved holiday in our beautiful, spacious and natural country,

With warm, and healthy greetings from wonderful Tiveden, Sweden
