

# Camping Tiveden

## Route description

Camping Tiveden is located between Swedish largest lakes the Vänern and the Vättern, between Göteborg and Stockholm near the ancient forest area of Tiveden on the shore of Lake Unden.

### From the north, west and east:

On the **E20** between Göteborg and Stockholm are the towns of **Mariestad** and **Örebro**. Drive west from Örebro, or east from Mariestad, until you reach the village of **Finnerödja**. (Finnerödja is usually available in your navigation device, Tived possibly not)

Leave the **E20** at Finnerödja toward the south, toward Tived. It would be useful if you take note of your odometer, as exactly **18km** (11 miles) down this very road you will find the entrance to our camping at your right hand side.

Follow road signs toward Tived. Tived is an area of several small villages that you will pass. If you encounter the village **Sannerud** you went about 3km (2 miles) too far.

### From the south:

Coming from the south, for example from Malmö, then you will find on the **E4** the roundabout of **Jönköping**. From there follow the **195** road toward the north-west and eventually toward **Karlsborg**. You will find te large lake Vättern toward your right. (Karlsborg is usually available in your navigation device, Tived possibly not)

After Karlsborg you can follow road **202** into **Udenäs**, or instead follow the **49** a little further into **Granvik**. With a motorhome or caravan we advise to take the route via Udenäs as the roads will be slightly larger.

At Granvik or Udenäs follow te signs toward **Tived**. Tived is an area of several small villages that you will pass through. When you pass the village **Sannerud** our camping is about 3.5km further. You will find the camping on your left hand side.

Camping Tiveden

## Navigation aid

As Camping Tiveden is located in a real rural area, most navigation devices do not know the names of the roads and villages. Depending on the brand of your device, you can try below methods of entering our address:

### If your device supports exact coordinates:

Do take note of what format your device wants. This can vary per device, but most common is decimal degrees:

- Degrees:                N +58.7986            E +14.5391
- Minutes:                N +58° 47.92           E +14° 32.35
- Seconds:                N +58° 47' 54"        E +14° 32' 20"

### From the north, west and east:

Enter as target the village **Udenäs**. Also enter as via the village **Finnerödja**, street **E2**

Follow the route via Finnerödja to Udenäs, but stop when you are still 21km (13 miles) from Udenäs. You will find the camping is at your right hand side.

If you encounter the village Sannerud you went about 3km too far and need to turn back

### From the south:

Enter as target the village **Finnerödja**. Also enter as via the center of the village **Udenäs**

Follow the route via Udenäs to Finnerödja, but stop when you are still 18km (11 miles) from Finnerödja. You will find the camping is at your left hand side.
